Term of Issuance:

Conditional

Name of Pesticide Product:

Solutions Imidacloprid Roach Bait

NOTICE OF PESTICIDE:

- x Registration
Reregistration
(under FIFRA, as amended)

Name and Address of Registrant (include ZIP Code):

Mr. Zachary Colander
Inova Chemicals LLC
2739 Pasadena Blvd.
Pasadena, TX 77502

Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act.

Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA sec. 3(c)(7)A provided that you:

- 1. Submit and/or cite all data required for registration/reregistration review of your product under FIFRA when the Agency requires all registrants of similar products to submit such data. You must comply with DCI ID# GDCI-129099-951 issued on November 10, 2010. If you have questions about the Generic DCI issued, you may contact Russell Wasem from the Pesticide Re-evaluation Division.
2. Make the following label change before you release the product for shipment:
• Revise the EPA Registration Number to read, "EPA Reg. No. 88746-4."

Signature of Approving Official:

[Handwritten signature]

Date:

JUL 29 2013

Venus Eagle
Product Manager 01
Insecticide-Rodenticide Branch
Registration Division (7504P)

EPA Reg. No. 88746-4

3. Submit one copy of the revised final printed label for the record before you release the product for shipment.
4. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFR section 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. Please also note that the record for this product currently contains the following CSF:

- Basic CSF dated 03/27/2013

If you have any questions, please contact Dani Daniel at 703 305-5409 or [daniel.dani@epa.gov](mailto:daniel.dani@epa.gov).

# Solutions Imidacloprid Roach Bait

[alt brand names: Apex Cockroach Bait, Apex FC, Apex Select, Apex Gel]

### Active Ingredients:

Imidacloprid.....	2.15%
Other Ingredients:.....	97.85%
Total:.....	100.00%

## KEEP OUT OF REACH OF CHILDREN CAUTION

Reg. No. 8746-

Est. No. 88746-TX-001

Net Contents:-----

### PRECAUTIONARY STATEMENTS Hazards to Humans and Domestic Animals:

**CAUTION:** Causes slight skin and eye irritation. Avoid contact with skin, eyes or clothing. Wash hands thoroughly with soap and water after use and before eating, drinking, chewing gum, using tobacco or using the toilet.

### DIRECTIONS FOR USE

It is a violation of federal law to use this product in a manner inconsistent with its labeling.

**Use Sites:** In and around structures, including, but not limited to, residential, multi-family, commercial, industrial, municipal, institutional, research, recreational, health care, educational, daycare, hospitality and agricultural buildings and other man-made structures, garages, transport vehicles, sewers, animal rearing and handling establishments and food handling and food processing establishments.

**Indoor Use:** Results will be best if spilled food and other debris are cleaned up before applying bait. Apply bait in small spots about ¼" in diameter. Bait can also be applied in thin lines if appropriate. For most infestations, applications should range from 10 to 20 spots per 100 square feet. Use the higher number of spots when infestations are heavy and/or when roaches are living primarily in wall voids or other inaccessible areas. Smaller, more frequent spots are better than occasional large spots.

Look for areas, particularly cracks and crevices, where roaches may hide or enter buildings. Some of these areas include areas where baseboards are peeling away from the wall, cracks in and around equipment and appliances such as stoves, sinks, dishwashers, refrigerators and walk-in coolers, hollow table legs, areas where pipes come through walls, cracks between different construction elements, around electrical boxes, cracks around hinges, where cabinets meet walls and cracks leading into wall, ceiling or floor voids. Pay particular attention to cracks which lead into void areas, even small ones. Also specifically look for warm, moist areas. Around and under dishwashers, refrigerators, ice machines, sinks, tubs and toilets and around drain openings are particularly attractive areas for roaches. Insert the syringe tip directly into the crack and apply about 0.5g (pea size) amount of bait.

Do not apply bait to areas that are washed down frequently, such as in cracks around the edges of food prep surfaces. Do not apply bait in areas where there is a risk of electrical shock. Be careful not to apply bait on hot surfaces or other areas where the temperature may exceed 130 °F as the bait could melt and drip. Bait placements should be in concealed, not open areas. Do not spray insecticides or other chemicals over bait placements, as this may cause roaches not to eat the bait. Apply bait out of reach of children and pets. Inspect bait placements periodically and reapply bait as needed. Ongoing monitoring is recommended as part of an Integrated Pest Management program.

### Food Processing and Handling Establishments, Including Federally-

**Inspected Food Plants:** In food areas, including serving areas while the establishment is in operation, only apply bait in cracks, crevices, and other inaccessible areas, or in tamper-resistant bait stations. Follow above directions for crack and crevice placement. Avoid contamination of food and feedstuffs. Never apply bait directly to a surface where food is stored, prepared or served. Any bait that is left visible after treatment must be washed up.

**Outdoor Use:** Apply bait on the outside surfaces of buildings and other structures, as well as in crawlspaces, attics and other voids. Porches, garages, sheds, AC units and other outbuildings, fences or walls may also need treatment. Pay particular attention to cracks where roaches may enter buildings and treat those areas. These areas include but aren't limited to cracks around windows, doors, eaves and soffits, expansion joints, and areas where lines or pipes enter buildings. Under siding and molding are also attractive areas for insects to hide. Apply bait in spots or lines as indicated for indoor baiting.

### Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

**Pesticide Storage:** Store in a dry place. Do not store where children or animals may gain access.

**Pesticide Disposal: If empty:** Non-refillable container. Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency or 1-800-CLEANUP which is managed as a public- private partnership.

### Warranty Limitations and Disclaimer

To the extent consistent with applicable law, seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. To the extent consistent with applicable law, there are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein. Manufacturer shall not be liable for any consequential damages based on the use of the product.

ACCEPTED

JUL 29 2013

Under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, for the pesticide registered under:

88746-4

EPA Reg. No:
